Now you are in the BIBO-Program, and your screen should look like this..

9) It depends of you computer, if the message-window also has opened already. If the message window doesnt appear on the screen, just click on the small yellow rectangle on the bottom, to open it.

3 messages are waiting for you!

Your messages

Lübeck	2013-05-26	READ
UPSman	2013-05-30	READ

**Click on "READ"
to read the messages**

10) Now read your messages, by clicking on the READ-symbol.

After you've read the message, you can close the message by clicking on "Save for later". (If you are logged in WITHOUT password, the text is "close" instead of "Save for later, but it's the same)
(If you are logged in WITH password, you have also the ability, to delete the message)

One of your messages should look like this:

(If there is no message like this, unfortunately you are too late, to claim your cup. The cup can be claimed only within 48 hours after calculation of the tournament. That's a pity :(

But, we are sure, you will be able to win to win a cup again very soon. Just play very good bridge, and the cup will come!

Ok, but now, if you are already here, maybe look around in our program, and try some things. F.e., enter your personal data, or upload your picture (only available if you are logged in WITH password. If you don't have one until now, just wait for your password. You'll get it by BBO-Message very soon).

Another idea: Look for the strength of your standard-bridge partners. Is it true, that they are really much more better bridge-players than you are? or... or.... or)

11) As soon, as the cup-message is on your screen, click, after you've read the message, on "move cup into your cupboard". Doing this, the cup will disappear, and will be transferred into your cupboard.

Message from: **YOU WON**

Congratulations!
You won a cup!

In the tournament
9284 Pairs BBO-Germany from 06.06.2013
you have collected more than 100 BIBO-Points
Your result: +100. We are impressed!

Close

Now close the message by clicking on "Close" (or "Save for later").

Gratulation, you are now a proud owner of a (additional) cup, which now can be seen in your cupboard.

In the main screen, you can see now a small green circle, with a number, which indicates the number of cups you've won until now. Second, on the right side, you can see a small cupboard with your cup inside. If you'll click on the green circle, or on the small cupboard, a new window will open, with a bigger picture of your cupboard.

WOW. It has been done! GREAT.

I think, the best will be, if you'll relax now, just being proud of your new cup in your cupboard. Yes, its really a hard thing, doing transfers of cups into your cupboard. But you did it!

You have learned something about the BIBO-Program. Of course, there are some more futures of the program. But now, there is time. Maybe, you think, what did i do? What was the reason for doing this? But, as I alreday said, now, theres time. Just close the Bibo-Program now, and come back whenever you like. Then, when you are back, read the instructions of the BIBO-Program, and you'll discover, what you are able to do now with this program.

Just try, and you'll see, its really funny to work with the Bibo-Zahlen, and its really interesting, to see your bridge-playing efforts documented . And no BBO-Player can tell you now anymore "I am an Expert", without risking, that you will use the BIBO-Zahlen, to see, if this is the truth!
